Dear Sir:

It has come to my attention that the Warren Commission has one Norman Redlick working on its staff. There seems to be rather abundant evidence that this man has very questionable connections with a number of communist-fronts. Abolition of the house committee that investigates un-American activities is one of his pet projects. I have but one question to ask - why is my tax money being spent to pay this man if he is in fact involved in these activities?

WOULD YOU PLEASE LOOK INTO THIS MATTER?

Sincerely yours,
Charles Bernard Schriver
